

Everlast

About UltraTile (Patent No. 6,623,840)

Designed with a patented “ultra” wear layer on a molded base to provide unlimited design options, UltraTile is ideal in weight rooms, since it surpasses the noise and shock absorption qualities of any other fitness floor. This 2-foot by 2-foot 1-inch tile does not require adhesive and offers a 15-year warranty.

Can a floor do more? Yes.

Force Reduction = 49% | Energy Restitution = 48% | Vertical Deformation = 3.7mm
UltraTile Acoustics: IIC = 56, STC = 52, | Delta IIC = 27

Applications

Custom Colors & Logos

If you can imagine it, we can create it. That's the concept behind the Ecore custom logo program. Create inspirational designs with simple borders and inserts, or make a bold statement with logos, symbols, or freeform shapes.

Everlast custom logo creations can add a touch of personalization to any fitness facility or enable the design of custom and interactive spaces. Whether it's incorporating way finding at the local gym or branding your college or university, custom logos make it easy to personalize a project's design. With any mixture of Everlast standard color patterns or pure ColorMill® EPDM options, the possibilities are endless.

Basic Rolls & Tiles

About Basic Rolls & Tiles

Everlast Basic Rolls & Tiles have been manufactured by Ecore for more than 25 years. These 8 millimeter recycled rubber surfaces come standard in 4-foot-wide rolls with custom cut roll lengths, as well as in 23-inch by 23-inch interlocking tiles* and 36-inch by 36-inch square edge tiles*.

*Minimums may apply.

Product Attributes

- Durable
- Sustainable
- Ease of Installation
- Ease of Maintenance
- Slip Resistant

Applications

About Us

Since 1871, Ecore has been transforming reclaimed waste into unique surfaces that make people's lives better. What started with simple cork closures has evolved into a diverse portfolio of products solving complex problems in applications ranging from playgrounds, weight rooms, and turf fields to hospitals, hotels, and retail environments. We are driven everyday by a simple question, "Can a floor do more?" At Ecore, we believe the answer is "YES". We are building our company and the products we offer based on the simple notion that floors should elevate beyond current expectations. Our energy is focused on the interaction between people and the surface. We engineer performance well beyond industry standards related to acoustics, ergonomics, and safety. Harvesting the unique power from a myriad of waste streams, Ecore creates products that align—substantial force reduction with a balanced amount of energy return to create dynamic surfaces that are catered to the individual and the application.

People will fall... we will be there to catch them!
Professionals will overwork their bodies... we will soften the blow!
Footfall sounds will keep someone awake ...we will quiet the noise!
